

Fundamentals of Agile

GIVE ME THE +++++
BASICS

COURSE

DESCRIPTION

This course demonstrates how Agile is a mindset based on values and principles, not a methodology or framework.

It covers the basic practices of Kanban and Scrum, but also focuses on why the practices work and why different thinking is required to succeed. Attendees will learn collaborative approaches to work that create shared understanding, high-quality and innovative product design.

LEARNING OUTCOMES

At the end of this course, attendees will understand:

- History of Agile and Lean
- The Agile mindset, values and principles
- Value-driven development
- How to use Agile to maximise value creation, provide transparency, improve customer and employee satisfaction
- The Kanban method and Scrum framework
- Adaptive planning and requirements management
- Agile metrics and how to track work
- Continuous Delivery, Continuous Validation and Continuous Integration
- How Agile focuses on quality first

AGENDA

You will learn what it feels like to work in an Agile way – experiencing many of the challenges you're likely to face through hands-on exercises, while being coached by a practising field expert. This 'learning by doing' style of instruction demands your open mind and active participation.

Other topics covered include value-driven development, customer involvement, learning from feedback, adaptive planning and continuous improvement. Because of the principles covered, even those with Agile experience can benefit from the course.

cont'd...

SUMMARY

Designed for those looking for an introduction to Agile, this ICAgile-accredited course delves into the fundamental underlying values, principles and practices used on Agile projects, explaining how they work and why. It lays a solid foundation for applying Agile to any aspect of work, while providing practical outcomes that can immediately be put to use.

COURSE LEVEL

Give Me the Basics

DURATION

2-day course

COST

For prices, refer to
assurity.co.nz/education

BOOK ONLINE AT

assurity.co.nz/education

This course is the foundation course of the ICAgile (International Consortium for Agile) curriculum, providing a solid foundation upon which further specialisation can be developed. See ICAgile website (www.icagile.com) or call us on 09 354 4901.

ASSESSMENT & CERTIFICATION

Participants can claim 16 PDUs (Professional Development Units) with the Project Management Institute (PMI) and contribute these towards the PMI Agile Certified Practitioner (PMI-ACP) Certification.

BOOKINGS & DISCOUNTS

Book and pay online at assurity.co.nz/education. We offer a 20% discount for early bird bookings made more than one month in advance. We offer discounts for groups of six or more.
